FOREWORD

Annual volumes of the Statistics of Queensland consist of separate Parts, each dealing with a section of statistics, together with an introductory part which includes a list of contents and an alphabetical index for the whole volume. These volumes were completed up to 1939-40 when World War II intervened.

Some of the Parts were published for the years from 1940-41 to 1952-53, but it is not possible to produce some which remained unprinted because of the war. Such issues of the eight annual Parts as are available will form separate volumes, each of which will contain all the issues of a particular Part available for the years 1940-41 to 1952-53.

All issues from 1940-41 to 1952-53 make up a volume for each of the Parts B, D, E, F, and G and this volume contains all such issues of Part B. Issues of Part A make up two volumes (viz. 1940-41 to 1946-47 and 1947-48 to 1952-53). There will be no volumes for Parts C and H for these years.

From 1953-54 annual volumes consist of eight Parts (A, Bi, Bii, C, D, E, F, and G). Part H has been discontinued.

Government Statistician's Office,
Brisbane.

^b This value represents net receipts from the Sugar Board, plus cost of sacks not accounted for, plus receipts from local sales of raw sugar. It is the value of the sugar when last handled by the mill employees as sacks were supplied to the mill free of charge; their value, other than the few not accounted for, is excluded from the value of sugar output. Railage and loading charges are excluded.

^c Value of raw sugar at 94 net titre loaded on steamers at mill port, less lighterage on No. 1 Pool sugar, which was paid by the Board and was a pool expense. Lighterage on No. 2 Pool sugar was a charge against individual mills. All sugar in No. 1 and No. 2 Pools is included in this value, but the value of about 45 tons sold locally by the mills and not pooled is excluded.
